

In my opinion, this has been a great opportunity for me because I have been learning English and how to teach English to the other people. Lydbury English Centre has a good system for teaching and I have been expanding my knowledge about it and when I come back I going to teach in my community. Also I have been learning about culture and customs of England (their food, the pubs). I have met friendly and helpful people. I have visited amazing places such as castles, (I like the castles because I never saw one before; it is like a dream) botanical garden, river Thames and colleges in Oxford, enormous buildings in Birmingham. One time I visited the sea in Wales, exactly Fishguard, with my host family. They had a birthday party in a beautiful house near the beach. From my room I could see the sea, it was a fantastic view. The first day we had a dinner and I ate a big dish of lamb with vegetables and red wine, very delicious. Also we had a great fireworks. The next day they decided to swim in the cold sea. I didn't believe the people can swim in it! I put my feet on the sand and ten seconds after I ran away quickly. However, I enjoyed it! Apart from the weather I'm having a great time here. Thank you very much "NEST Trust", I am very grateful.

(Deylin wrote this herself. She drafted a first version, received comments on it and then rewrote it.)
